National Agricultural Higher Education Project (NAHEP)

Indian Council of Agricultural Research, New Delhi

Sensitization Workshop cum Webinar

on

Agricultural Knowledge Management in the Networked Digital Environment

05th August, 2020

Jointly organized by

National Knowledge Management Centre for Agricultural Education and Research

ICAR-Indian Veterinary Research Institute, Izatnagar (UP)

&

Bihar Animal Sciences University, Patna, Bihar

Chief Guests

Dr. Rameshwar Singh
Vice Chancellor
BASU, Patna

Dr. R. K. Singh
Director cum Vice Chancellor
ICAR-IVRI, Izatnagar

Guests of Honour

Dr. R. B. Sharma
National Co-ordinator (IG)
NAHEP, ICAR, New Delhi

Dr. Ravindra Kumar
Director Research
P.I. NAHEP, BASU, Patna

Resource Persons

Dr. K. Veeranjaneyulu
Librarian & Head, NIT Warangal
Former University Librarian & Professor and
PI, NAHEP-NKMC4AER, PJTSAU, Hyderabad

Dr. G. Rathinasabapathy
University Librarian &
CCPI, NKMC4AER (IG)
TANUVAS, Chennai

Dr. Amrender Kumar
Principal Scientist &
CCPI, NKMC4AER (IG)
ICAR-IARI, New Delhi

S.S. Rawat
Officer-in-charge, Library
ICAR-IVRI, Izatnagar

Coordinator

Dr Deepak Kumar
Assistant Professor
Department of Veterinary Pathology
BASU, Patna

Organizing Secretary

Dr. K.N. Kandpal
CTO & CCPI. NKMC4AER (IG)
NLVS, ICAR-IVRI, Izatnagar

Panelists

Dr. Yashpal Singh
Senior Scientist, ARIS Cell
ICAR-IVRI, Izatnagar

N.P. Ravi Kumar
University Librarian I/C &
PI (NKMC4AER)
PJTSAU, Hyderabad

Dr. Hans Raj
Advisor ICT and Library Services
BASU, Patna

Dr. Kailas D. Tandel
University Librarian I/C
University Library, NAU, Navsari

Registration Form Link: https://forms.gle/AxbcY2wn6F9iXHzB9

Background

The National Agricultural Research & Education System (NARES) is one of the largest in the world having 102 research institutes and 73 agricultural universities spread across the country. It keeps generating a large volume of research and technological innovations and thus has a huge repository of knowledge and information on various branches of agriculture such as crop sciences, horticulture, resource management, animal sciences, agricultural engineering, fisheries, agricultural extension and agricultural education. Due to burgeoning human population, challenges of climate change and decreasing soil fertility ad increasing demands of consumers have added pressure on agricultural production and value addition. Fortunately, digital information technologies and online access to information resources have strengthened the conventional library & information services. Timely access to the relevant scholarly information on topic of interest has become crucial in the modern era. The speed and mode of services that librarians and information professional use has thus become very important and have undergone fundamental changes over past few decades. The libraries and the librarians have to graduate to the new vistas of information revolution. Indeed digital knowledge is the current buzz word. Digital resources, digital services and information access technologies continue to create new opportunities, new challenges and new expectations. Union catalogue, digital repository and digital libraries are the new dimensions that have been added under E-Granth initiative as part of National Agricultural Innovation Project (NAIP) to accelerate the online access of knowledge to the researchers, teachers, students, extension professionals in 17 State Agricultural Universities and 4 deemed to be universities. These facilities have to reached to the unreached universities of NARES. Taking note of the fast pace of innovations happening in the field of digital knowledge management, it is necessary to establish a collaborative management structure to coordinate and guide the implementation and ongoing maintenance of the digital libraries; to set policy regarding participation, funding, development and access; to encourage and facilitate broad involvement; and to address issues of policy and practice that may inhabit full citizen access. Therefore, National Knowledge Management Centre for Agricultural Education and Research (NKMC4AER) is proposed to innovate and execute newer developments for efficient use of modern platforms of digital knowledge. The NKMC4AER will continue to strengthen the digital use of modern platform of digital knowledge. The NKMC4AER will continue to strengthen the digital platform of NARES repositories under various agricultural libraries of the universities.

For Registration

For Registration go to Link below or scan the QR Code

https://forms.gle/AxbcY2wn6F9iXHzB9

QR Code

Note:

- Online participation limited to **500**.
- E-Certificates will be provided to the participants those who attend the session and submit the feedback form.
- Login ID or Meeting ID, Password and Link will be provided after registration on Email.
- There is **No Registration Fee** for the program.
- This webinar is open to all stakeholders i.e. Students, Faculties, Researchers & Library Professionals etc.
